Redford Crown Glass.

THE subscribers would again beg leave to call the attention of those who contemplate building, to the Redford Crown Glass, an article well known, and extensively used in the Eastern cities, for its superior lustre and brilliancy of surface, as well as strength.

We should be pleased to show the samples we have, and to take orders to be filled, at the factory list price.

We would call attention to the annexed Extract from the Report of the Committee of the American Institute.
HENRY J. NAZRO & CO.

EXTRACT FROM THE REPORT OF THE COMMITTEE AT THE AMERICAN INSTITUTE.

"For richness of lustre and brilliancy of surface (as well as thickness and strength,) the Redford Glass is the most beautiful article of the kind that has fallen under our notice, either domestic or of foreign production, and it affords a proud specimen of the skill and enterprize of American manufacturers."

The undersigned having seen the above described Glass in a great number of first class buildings, both public and private, accord fully with the foregoing estimate of its merits, and particularly recommend it to all persons who require a strong, durable, and brilliant article.

THIS SOCIETY will receive proposals for Life Assurance, through the undersigned, as its Agent for this City, on terms highly favorable to applicants.

Prospectuses may be had on application, together with blank forms of proposal, and such other information as parties may desire.

The following are among the advantages offered by this Institution:—

The Guarantee of a large capital securely invested.

The peculiar Benefits secured by the principle of the Loan Department.

The payment of Premiums Half-Yearly or Quarterly, by parties assured for the whole term of Life.

Thirty Days are allowed after each payment of Premium becomes due, without forfeiture of Policy.

Part of the Capital is permanently and securely invested in the United States.

Wives may insure the lives of their husbands for their own and the benefit of their children.

The assent of the Society is not necessary to a transfer of the Policy.

For all practical purposes, this Agency is essentially an American Company, strengthened by a large London Capital safely invested in London; equally available to American as to British policy holders. All losses are settled by the New York Board and paid by Bills drawn on the London Office. Thus the Guarantee Fund in New York remains untouched, so that in case any dispute should arise between the society and policy holders, funds are on the spot, subject to the control of our Courts.

Medical Examiners fees are paid by the Society.

Purchased by himself in the City of New York, within the last month, FOR CASH, at prices from 25 to 30 per cent less than formerly paid through partners, and I can assure my customers that the Liquors that I now offer, have not passed through second hands; on the contrary, I saw all my goods sealed for shipping, and turned out of the CUSTOM HOUSE; therefore, I can say with confidence, that my Liquors are PURE.

I have marked my Goods very low, and have therefore adopted the

IMPORTANT TO THE PUBLIC!

THE following advertisement was published in May, 1849, in the "Boston Daily Times," and various other newspapers in the United States, by James G. Wilson, Esq., the owner of the "Woodworth Patent," shortly after I had advertised my "PATENT STATIONARY CUTTER, PLANING, TONGUEING, AND GROOVING MACHINE," throughout the United States:

"PLANING MACHINES.

"I take this method of answering the frequent inquiries, by letter and otherwise, as to my opinion upon the various notices through the papers, of the Stationary Knife Planing Machines attempted to be palmed off upon several persons ignorant of their true worth. I would state for the information of the enquirers that they will find substantially the machine now offered by several pretending inventors, described in the 10th volume of the Repertory of Arts, invented by Samuel Bentham, in the year 1791. A like machine was patented in this country by one Kingler, some sixteen years since, and another one got up by Albert Richards, of West Troy, N. Y., and abandoned about the same time. It ought to satisfy the public to know that after fifteen eight years experimenting upon these machines, not one in use is of any value for the purpose contemplated.

I will furnish a Stationary Knife Machine equal to any now in use, or to any offered by the pretending inventors, at the cost of the machine and five per cent for my trouble.
JAMES G. WILSON,
May 18, 1849. Philadelphia."

I deny that any person ever saw or heard of such a machine as mine until I invented the same. Said machine was operated in the month of August, 1848, and no machine before this could do as much work, and do it as well as mine. In reply to the above advertisement, and in order that the public may be assured that I mean what I say, I will offer to pledge ONE THOUSAND DOLLARS against an equal amount from said Wilson, that ONE of my machines will plane, or plane, tongue and groove with less power, as much lumber in the same time, and do it as well, or better than TWO of the "Woodworth" machines. The trial to be made at my Steam Mill, Border St., East Boston, Mass., or at such other place as may be convenient for such a trial.

TO OUR FRIENDS AND PATRONS.

The Milwaukee Daily *Sentinel* is presented to our readers this morning in an entirely new dress from the Foundry of N. Lyman & Co., Buffalo. The type speaks the praise of the manufacturer in as eloquent terms as any that we could employ. We have made a slight alteration in the name of the paper, and in the making up of the form; both of which changes we hope that our readers will regard as decided improvements. In all other particulars the *Sentinel* remains unchanged, and will continue to advocate, to the best of its ability, the principles and measures of the Whig Party, and the interests of our City and State.

Mr. Wm. H. Watson, who has long been associated in the Editorial management of the paper, and Mr. J. S. Fillmore, who has had charge of the Business Department, have become interested also in the proprietorship. It shall be our joint endeavor to make the *Sentinel* yet more worthy of the generous and steadily increasing patronage which it has hitherto enjoyed, and to render it a welcome visitor at every fire-side in the State. Our readers and the public generally, we trust, will find in the *Sentinel's* past course a sufficient warrant for its future good conduct, to dispense with any further promises on the part of editors, or proprietors. We hope to retain all our old friends, and with their "aid and countenance" to win many new ones.

THE BANK QUESTION.

At a mass meeting recently held in the Western Assembly District of Fond du Lac County, the following, among other resolutions, was unanimously adopted:

Resolved, That we consider the question of Banks or No Banks, as not a party or political issue in this State, at the present election, since the question is submitted to the voters, and *their action is binding on the Legislative and State officers.*

This is a great mistake, and one against which the People ought everywhere to be warned. The popular vote, however strong in favor of Banks, is *not* "binding" either on the Legislature, or the State Officers. The Constitution makes that vote *indispensable*, but not imperative. The Legislature cannot create Banks, or authorize Banking without the popular assent previously obtained, but it is *discretionary* with them to do it then, or not, as they may see fit. The language of the Constitution reads thus:— * * * "if at any "such election a number of votes equal to a majority of all the votes cast at such election on "that subject shall be in favor of Banks, then the "Legislature *shall have power* to grant bank "charters, or to pass a general banking law, &c." The Constitution does not say that the Legislature *shall do so,* but "shall have power, &c." In other words, the question is left entirely in their hands. They may, or may not, pass any Banking Law, or they may enact so obnoxious a one that the People will be sure to reject it. Hence, we repeat, the vital importance of electing *stronger and reliable advocates* of a sound Banking system to the Legislative and Executive Offices. It would be the height of folly to trust such a question with lukewarm friends, or open enemies. The crisis is too grave a one for trifling. Wisconsin has already paid dearly for her devotion to a false "democracy." She has sacrificed her best interests on the altar of party. Must she suffer and bleed still more? Have not our People borne and forborne long enough? Is there no end to the experiments and exactions of the political Quacks who have ruled, till they have well-nigh ruined the State? How say you, Merchants, Mechanics, Farmers and Working-Men of Wisconsin, will you vote for Banks and those who favor their introduction in this State, or will you fasten another mill-stone about your necks, by sustaining and voting for the candidates of the Anti-Bank party?

A Pioneer of Wisconsin.—We had the pleasure, on Saturday, of a visit from Judge Lockwood, of Prairie du Chien, who has lived *thirty five years* in Wisconsin, and is, we believe, the oldest American settler within the bounds of our State. Long as he has resided in Wisconsin this is his first visit to Milwaukee, and his amazement at finding a full grown city here, where *eighteen years ago* there was but one solitary white man, was, as may be imagined, very great. Judge Lockwood came into Wisconsin in 1815, the fall after the War with Great Britain, and has resided at the Prairie, where he established himself in business, ever since. He was a member of the first Territorial Legislature which convened at Belmont in 1837, and has since acceptably filled other stations of public trust.

Rapid Growth.—The rapid growth of many of the towns in the neighborhood of New York is remarkable. The New York *Herald* says that 400 houses have been built in Morrisania, on the Harlaem Rail Road, since May last, and that a contract has just been completed for 1000 houses at a place six miles beyond. They are cheap houses with small rents, and are occupied by persons of small means who find it cheaper to live out of town than in.

"THE ARTFUL DODGERS."

The Hunker presses which support Mr. Upham and his Colleagues on the State Ticket, keep MUM in reference to *all* the important questions at stake in the coming contest. The Bank issue is one of *vital* interest to this State, and it is of the *first consequence* to the People to know how the candidates for the Executive and Legislative Offices stand affected towards this question. The Whig nominees and the Whig Platform declare for "*a sound system of Banking* in Wisconsin," and the Whig press is making a strong fight in this behalf. The self-styled "democracy," on the other hand, in their Candidates, their Convention and their Presses, *avoid all reference* to the Bank question; hoping, by this characteristic "dodge" to save the votes of the Bank democrats in the Eastern half of the State and retain those of the Anti-Bank democrats in the Western. Shall such a trick win?

The *Fox and Wisconsin Improvement* has been notoriously and grossly mismanaged. The ample fund provided for its prosecution has been shamefully wasted, or corruptly applied, and the line of the work is marked by the wrecks of unskilfully constructed dams, locks and Canals. Not a word of censure is to be heard in the Democratic Conventions, or to be found in the Hunker Press, against these disgraceful transactions. The waste, corruption and mismanagement of the Fund will be *covered up* from the public eye, if the party now in power are continued in office. The Whigs, on the other hand, denounce the manner in which the Improvement has been hitherto prosecuted, and demand a thorough investigation into its abuses. Let the friends of this important Public Work, as they desire its speedy completion, give their votes to the Whig candidates.

The management of the School Fund, for the past two years, has been the theme of complaint and censure all over the State. It has been notoriously and corruptly used to advance personal, political, or local interests. Here again the Hunker leaders and presses are "Mum." Their Convention said not a word on the subject. If, as is generally charged and believed, the State has been defrauded and the School Fund impoverished, the People should know it. They *will* know it, if the Whigs succeed at the coming election. But they will wait in vain for any such exposures if the "Artful Dodgers" of Hunkerdom again carry the day. Shall they have a chance to hide their own wrong-doings?

The question of the Tariff is awakening a lively interest all over the State. Our Farmers, Mechanics and Manufacturers are groaning under the disastrous consequences of Loco Foco Legislation. The British Tariff of 1846, which was proffered as a boon to the Agricultural Interests, proves to be its worst enemy. It has almost destroyed the Home Market, without improving in the least the Foreign demand. It has bled the country *this* year to the tune of FIFTY-SIX MILLIONS, and is still draining us of the life-current of Trade and Commerce. The Whigs hold no doubtful language on this question. They are for Home Industry and Home Interests.—They desire to see our American Manufactures encouraged; our American Mechanics employed and protected; our American Farmers ensured a steady market and fair prices. A Tariff discriminating in favor of American, rather than British Industry, will secure all this. Shall we have it? The Whigs of Wisconsin, with one accord, say *Aye!* The Hunker leaders, presses, and candidates, say—nothing! On this, as on all the other points at issue, they keep Mum. This trick may do well enough for "Artful Dodgers," but is it worthy of the "democracy," or will it satisfy the People? Let them answer through the Ballot-Boxes in November!

"Spoke too Quick."

The Sheboygan *Lake Journal*, publishes the following, in reference to the card of the indomitable *twenty* who scolded the Depere *Advertiser* for speaking its mind about the Loco candidate for Governor:

> A Good Omen.—We find in the Green Bay *Advocate* a Card, signed by 20 Democratic voters of the town of Depere, in which they express their unqualified disapprobation of the course pursued by the Depere *Advertiser*, in reference to our State Democratic Nominations; and say that they feel bound to give the ticket as nominated, an undivided support. So much for the *insignificant yelpings* of the Depere *Advertiser*, about which the whig papers have had so much to say.

The *Journal* is too fast altogether. The *Advertiser*, just received, copies the card of the twenty, and answers them plainly and frankly. Not only this; it also publishes another card, signed by twenty-*eight* of the Depere "democracy," who speak as follows:

> Believing that the communication will have a tendency to convey abroad the impression, that those who affixed their signatures thereto, constituted the whole Democratic party of this town and consequently, that the Editor of the Depere *Advertiser* stood alone in the opinion which he expressed relative to Don A. J. Upham, the Democratic candidate for Governor; we have thought proper to express, through the columns of your valuable Journal, our "unqualified disapprobation" of the course pursued by those who represent themselves of our party, and our cordial and entire approval of the sentiments which you expressed in your paper, under date of the 17th and 24th of September.

A Slight Error in Calculation.—In Ex-Secretary Walker's Treasury Report of December, 1847, that officer took occasion to make use of the immense export of produce from this country, in reality owing to the Irish famine, and to ascribe it all to the Tariff of '46. He furthermore went on to make estimates of the exports for several years to come, based on the increase of 1847 over 1846. Here is his calculation;

	Actual.	
1846	$101,718,042	
1847	150,574,811	
	Estimated.	
1848	222,898,350	
1849	329,959,993	
1850	488,445,056	
		$1,041,303,399

The official statements show that these exports were, in

1848	$132,934,121	
1849	132,666,955	
1850	134,900,265	
		400,501,341
		$640,802,058

Mr. Walker's calculations, it will be seen, were *only six hundred and forty millions of dollars* over the reality!—entirely too trifling a matter to be worth notice.

Some of our farmers, however, may reflect upon this brilliant fulfillment of Loco Foco promises.

Fire Annihilator.—The despatch which we copied announcing the failure of the Annihilator in New York, it seems was wrongly credited, and should have been dated at St. Louis instead of the former city. The New York company disclaims all responsibility of the failure of the Fire Annihilator in St. Louis. They say the patent was sold in that State before their purchase of Mr. Phillips, and that they have made arrangements to manufacture their machines in such a way that they are guarantied against failures.

We shall look anxiously for a fair trial of the Machines in this country.

The "Bigler Brothers."—These two gentlemen have been very extensively announced as the Opposition Candidates for Governors of Pennsylvania and California—John in the former state and William in the latter. The papers in their interest have gloried in advance in the election of both. The good Whigs of California, it seems, have laid *their* Bigler "cold as a wedge"—and we have yet to see the result in Pennsylvania.—If the Keystone State does not re-elect Geo. Johnston, she deserves to be punished with a Loco Foco Governor for 20 years.

Another Square Bolt!—It will be seen by the Telegraphic despatch from Kenosha that the "Democracy" of that County have *repudiated* the Hunker Ticket and Platform! The Party Overseer will have to put an extra snapper on his lash if he expects to whip these rebels back into the traces.

Hungarians Arrived.—The Chicago *Tribune* of Friday evening announces the arrival of the 128 Hungarians in that city, on their way to New Buda in Iowa. They stopped at the Rio Grande Hotel.

NORTH WESTERN TELEGRAPH COMPANY.

This Company, incorporated by the last Legislature, has perfected its organization, and issued its new scrip in shares of $50, half-shares and double shares. The indefatigable President, Col. S. W. Hotchkiss, and the Secretary and acting Superintendent, Mr. I. M. Smith, are now busily engaged in putting their lines throughout in first rate order, and intend to keep them so. In order to meet current expenses, and to ensure dividends to the stockholders they have recently raised their prices for local business. The increase, however, is not large, and the charges still quite moderate. The North Western Company have now *six hundred* miles of wire, in operation; two-thirds of it within this State. They connect from Milwaukee, with all the principal towns of Wisconsin, as Madison, Janesville, Fond du Lac, Fort Winnebago, Green Bay and Mineral Point, as well as with Galena and Free Port, Illinois, and at Chicago with *all* Telegraph lines, leading East or South. Messages sent to any office in the interior of this State can be *expressed* thence to any point in the county where the office is located, on pre-payment of the necessary expenses.

The Telegraph, like the Rail Road and the Steamboat, has become one of the *necessities* of the age. We can no longer dispense with its wonderful faculty of transmitting intelligence with the speed of thought. It is, indeed, subject, like the Mail, to various delays and irregularities. This is especially the case in a new and timbered country, such as is much of that which the lines of the North Western Company traverse; since settlers and others fell trees without any regard to the wires, and frequently right over them.—Hence the numerous and annoying breaks in the Western lines. These difficulties, however, rapidly diminish as the settlements increase, and the line from Milwaukee to Madison, for three months past, has been as constantly in operation as any other leading out of our city. It is the determination of Messrs. Hotchkiss and Smith, both energetic men, to devote their whole time and attention to keeping their lines in good repair, and thus to merit the public confidence and patronage. We hope they may prosper abundantly in their enterprize, and find, in the increasing business and receipts of their Telegraph lines, a substantial reward for the toil, time, and money they have so freely expended in their construction.

Jenny Lind.—The New York *Tribune* says that the report of Mdlle Lind's intended appearance in Opera is entirely unfounded, and publishes the following extract from a letter written by her to Mr. Joy of New York upon the subject;

> "I have not the *most remote idea* of ever again returning to the stage; and although I usually treat with perfect indifference the reports and sayings of writers in newspapers or otherwise, yet I should feel really thankful to you to state that no inducement whatever can tend to make me change my mind in reference to the resolution I have adopted to quit the stage."

☞ The *Wisconsin* of Saturday grieves over the circumstance that "the *Sentinel*, as a Whig paper, has always been peculiarly fortunate" in obtaining democratic patronage. The fact is undeniable, and our obligations to our democratic friends are freely acknowledged. But if the *Wisconsin* objects to such a "division of the spoils", we should like to ask our contemporary how *it* would prosper without whig patronage.

☞ Col. Hughes, the whig candidate for Lieutenant Governor, is on the stump. He speaks at Lancaster, Grant county, on the 10th; at Highland, Iowa county, on the 11th, and passes on through the State.—He will stir up locofocoism in a manner to make it quake. If he don't make stumping tell for the whig ticket, we shall be greatly mistaken.—[*Madison Argus.*

We hope to welcome the Colonel to Milwaukee in the course of the next fortnight. He is making a gallant fight against great odds, but, as he himself says, has never yet been beaten and don't mean to be this time. We hope our Whig friends everywhere will turn out, in mass, to greet and listen to Col. Hughes, when he visits their respective neighborhoods.

City Matters.

Musical Society Concert.

The first Fall Concert of the Musical Society was given at their Hall in Dickerman's Block on Friday evening, and attracted, as usual, a numerous audience. The opening Overture from "Jean De Paris" was admirably performed; the Orchestra having lost nothing of its excellence during the summer vacation. Mr. Menzies sang "the Flowers of the Forest" with his accustomed taste, accompanied on the Piano by Mr. Hempstead. A quartette for stringed instruments, delightfully played, and a fine Chorus for male voices, completed the first part. A quintette for stringed instruments, by Beethoven, introduced the second part. This was followed by "Casta Diva," most artistically sung by Mrs. Mahler, with chorus and Orchestral accompaniment. Dr. Fessel next played a Solo on the Violin, cleverly accompanied by Mr. Biedermann on the Piano, which elicited a very hearty encore. The Concert closed with the noble Hallelujah chorus, from the Messiah, which was given with the full strength of the Society, and in a style that would have won the warmest applause in any city in the Union. The whole Concert was eminently successful and in the highest degree creditable to the Amateurs and Artists, who assisted, and to the accomplished Conductor, Mr. Balatka, who led it.

New Advertisements.—Messrs. Boyd & Ledyard, whose name is synonymous with straight forward fair dealing, invite attention in our columns to-day to their very choice selection and immense stock of fall and winter goods. We have never yet been "overhauled" for any good thing that we have said of this enterprising and thriving firm, and do not expect to be. They *mean* what they *say* in their advertisements.

Gridley & Co.—This well and favorably known firm is again on hand with its usual tasteful selection and choice variety of goods, and is ready for all comers. The friends of this house are legion, and need but to know that they have new goods to show to crowd their counters at once.

Mack, Oettinger & Co.—See, in our paper today, the cordial invitation given by another of the west side firms to our citizens generally, to call and make themselves at home in their well filled store, where everything in their line of business is to be had for a mere "consideration". "Good goods and cheap" is the West side motto this fall.

An Improvement.—Lubington & Co., are laying down on the two fronts of their blocks, fine stone Sidewalks. The stone is brought from near Lockport, New York, and is cut in handsome square blocks, so that it will not only be a durable walk, but look well. It is a pity that stone flagging could not be obtained nearer, so that we might look for more of the same sort.

Division of California.—A call appears in the California papers addressed to the citizens of the southern part of the State, calling for a convention to take measures to procure a division.—Among the signers to the call from San Diego County is the name of Agostin Haraszthy, late of this State.

Our Advertisers.—The pressure upon our advertising columns has been so great, for a few days past, that in the process of putting off the old and putting on the new dress, we have been omit, or curtail some advertisements. We hope to make it all right in a day or two.

Circus.—Rockwell's St. Louis Circus performs in this city to-day and to-morrow. We notice many favorable allusions to the merits of the company. In Chicago they performed four days to the huge delight of the multitude which gathered under the canvass.

New Subscribers.—We shall take the liberty of sending our paper, for a day or two, to others besides our regular subscribers. This will not, however, be continued beyond Wednesday, unless orders are left at the Office, or with our Carriers.

United States Court.—A special term of the U. S. District Court, Judge Miller presiding, will commence in this city at 11 o'clock this morning. We understand that the docket is quite a large one.

Majorities for Governor, as far as heard from

Reading, (Whig)	Maj.	Bigler, (Dem)	Maj.
San Fran. City	975	Sacramento Co	386
Santa Clara Co	336	Yolo Co	110
Solano Co	150	Nevada Co	550
San Joaquin	1	El Dorado Co	38
Total	1,462	Total	[illegible]

Reading's majority, so far, 658.

The vote of San Joaquin County for Governor as far as received, was for Reading, 802; Bigler, 801; on the other tickets there was a democratic majority.

The new city of Vallejo, which has been selected as the capital of California, gives 170 votes for Senator, and 150 majority for Major Estell, the democratic candidate, which elects him. Mr. Bradford, the whig candidate, had twice served in the Assembly, and his election to the Senate was confidently expected by the whigs—and the San Francisco *Picayune* says that the vote was produced by local causes entirely.

The San Francisco *Herald* (Opp.) of Sept. 6th, says;

> "The returns, thus far received, indicate the triumph of the democratic State ticket by a decisive majority. The Legislature will be largely democratic, and at least one Congressman will be of the same politics." But the *Morning Post* (whig,) also of 6th Sept., remarks, per contra:—"From all these meagre, imperfect returns, no conclusion can be arrived at. There is not sufficient date to form an opinion as to the result.—We see nothing in all we have heard to discourage us in the success of the whigs in the State.—In fact, we have yet, notwithstanding the crowing of the *Herald* and others, strong faith that the whigs will carry the State."

(We gave on Saturday morning the vote for Congress as far as received.—Ed. Sentinel.)

We add the following election items from the California papers:—

The Stockton *Journal* says:—

> The whig ticket is running better in the South than we anticipated. The northern part of California is where the strongholds of the party exist, and from there we expect such majorities as will elect the whig ticket by an overwhelming majority. The whole ticket has run well in San Joaquin county.

The Sacramento *Times*, speaking of the election returns, says:—

> Bigler has a majority, in the city, of 100 votes; and in the county, so far as heard from, 39.—This majority will be increased to over four hundred.
>
> The democrats have elected every man upon their ticket, with the exception of Public Administrator and one of the Justices of the Peace; and we are by no means sure that the latter has not been elected.
>
> The average majorities are about four hundred.

SAN FRANCISCO.

> The Morning *Post*, of Sept. 6, says the following whigs have been elected in this county;
>
> Soule, to the Senate; Ellis, Orrick, Thorne, and possibly one, two, or three of the other members, to the Assembly; Satterlee, Judge of the Superior Court; Wainwright, County Clerk; Beffum, County Recorder, and probably others, besides several Justices of the Peace & constables, who are only in portions of the county.
>
> The democrats we fear, have elected Snyder to the Senate, by a small majority over Turner, whig. They have elected to the Assembly, Peachy, and probably one, two, or three others. The vote for several of the members of Assembly is, from all we can gather, exceedingly doubtful, and probably can only be determined by the official vote. The democrats have also elected Campbell, County Judge, and Hays Sheriff, and a few other officers of minor importance in the county and district.

New York General Banking Law.—This admirable law, which secures to the last dollar holders of bills of banks organized under it, is a *Whig law*—*Whig* in its conception—and *Whig* in its supporters. It was fiercely contested by the Loco Foco party of the State, who, with all their professions, cared not how much the people lost by unsecured bills. A safe and sound Banking System is Whig policy, here and elsewhere.

☞ We have been well and long acquainted with Mr. F., and entertain for him the highest possible respect as a friend and citizen, but object to him as a whig Governor, not having any use for such a Governor just now.—*Wisconsin* of Saturday.

Credit to whom Credit.—The Madison *Express* states that the elegant mats which took a premium for the best Needlework at the State Fair, which premium was awarded to Mrs. E. B. Dean, were the work of Mrs. J. W. Sterling of Madison.

The premiums in all cases, we believe, were awarded to the exhibitors.

Chicago & Galena R. R.—The total earnings of this road for the month of September were $19,443.26. Same month last year $14,058.95. Increase $5,385.30.

Dr. J. S. HOUGHTON'S PEPSIN, the true Digestive Fluid, or Gastric Juice, prepared from Rennet, or the fourth stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. D., Philadelphia. This is truly a wonderful remedy for indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation and Debility, curing after Nature's own method, by Nature's own agent, the Gastric Juice. Pamphlets containing scientific evidence of its value, furnished by agents gratis. See notice among the medical advertisements. sep4

IN calling attention to Dr. Guysott's Improved Extract of Yellow Dock and Sarsaparilla, we feel confident that we are doing a service to all who may be afflicted with Scrofula and other disorders originating in hereditary taint or from impurity of the blood. We have known instances within the sphere of our acquaintance where the most formidable distempers have been cured by the use of Dr. Guysott's Extract of Yellow Dock and Sarsaparilla alone.
It is one of the few advertised medicines that cannot be stigmatized with quackery; for the "Yellow Dock," and the "Sarsaparilla" are well known to be the most efficient (and at the same time innoxious) agents in the whole Materia Medica, and by far the best and purest preparation of them is Dr. Guysott's Yellow Dock and Sarsaparilla.

VOLUME VII. MILWAUKEE DAILY SENTINEL. NEW SERIES.

DAILY SENTINEL.

Execution by the People of Sacramento City.

In Sacramento city an alarming excitement took place, growing out of the reprieve by Gov. McDougal, of Robinson, one of the highway robbers condemned with two others to be executed. The people took charge of the prisoner, and after the officers of the law had fulfilled their duties upon the two others, proceeded to execute him. Gov. McDougal was burnt in effigy, and in public resolutions requested to resign.

The Sacramento Union of Aug. 23, gives the following particulars:–

By daylight yesterday morning, teams, horsemen and pedestrians were seen pouring into the city from every direction, and at an early hour the city was crowded with towns and strangers from the country, who had come in to witness the execution of the three culprits Thompson, Gibson and Robinson.

Soon after 9 o'clock, a rumor ran through the city that a respite of Robinson's sentence had been received from the Governor, and that the day of his execution was to be postponed until the 19th day of September.

Almost immediately a meeting of citizens organized at the Orleans Hotel, of which Dr. Spalding was chairman and Dr. Brierly secretary.– Mayor Hardenbergh appeared and requested to know if he was to be exonerated from all blame and freed from all responsibility on leaving the prisoners in the hands of the Sheriff.

Judge Sackett moved that a committee be appointed by the Chair to report resolutions expressive of the sense of the meeting. The following gentlemen composed the committee: Messrs. Sackett, Milne, Stiles, Scranton, Fay & Wiman.

The committee reported as follows:– "That the Mayor is not required by law, and would not be justified in relieving the Sheriff of any responsibility attaching to that office."

Resolved, That the city authorities are hereby recommended to place all the prisoners under sentence in the hands of the proper officer.

As the hour for the execution drew nigh, the crowd around the Station House became immense and there was evidently a fixed determination in the minds of the populace that the prisoner Robinson should suffer the same penalty as the other two culprits, and that, too in spite of the Governor's proclamation.

Sheriff Ben McCulloch then mounted a cart and commenced reading the document forwarded by Hon. John McDougal the crowd continually crying out:

"Hang the rascal!" "He's the worst of the lot!" "String him up!" "Lynch him!" &c. The Stark Guards at this time marched down K street to 2d, wheeled about and formed a square in front of the Station House.

The Sheriff, after reading the reprieve, ordered the two prisoners, Gibson and Thompson, to be taken to the place of execution, and likewise commanded the Guards to convey the prisoner Robinson to the Prison Brig. The former two were then placed with their arms securely pinioned, and driven rapidly off in company with the officers to the scaffold.

The crowd rushed after, and in a few moments scarcely a hundred persons were about the Station House.

The Guards then brought out Robinson, and attempting to convey him to the prison Brig, but were compelled, on the corner of 2d street, to deliver their prisoner to the people, who placed him in a cart, and thus surrounded by the Guards, were escorted to a grove near the place where the scaffold was erected.

Very few of that immense assemblage knew that Robinson was at that early hour already in the hands of the people.

A Committee, consisting of the following gentlemen, was appointed, and who were to take charge of the execution of Robinson after the legal authorities has performed their duty:

Messrs. Beard, Scranton, Milne, Wheeler, Miller, Bayley, Olmstead, Rightmire, Smith, Bond, Barnall, McGilvey, Stiles, C. H. Smith, J. Grant, S. Bruce, Bison, Freeman, Curtis, Fowler, Norton and Conrad.

While these proceedings were going on at the grove, the final preparations for the execution of the unfortunate men, Gibson and Thompson, were progressing under the management of the Sheriff at the scaffold, which was built at the corner of O and 4th streets.

The Catholic clergymen and the officers, together with the prisoners alone occupied the Scaffold.

The grave clothes of the prisoners were then put on, and Thompson, whose real name is McDermot, came forward and made a brief confession, which elicited no information of any great interest. He stated that he was an Englishman by birth; that he hailed from Manchester, and had committed many robberies, but was never guilty of murder. He was particularly severe while speaking of Robinson, but would not *inform* of any of his accomplices. He said he would rather be hung fifty times, and torn into quarters, than reveal anything concerning his confederates. He said he never touched any of the money belonging to Wilson, and that Robinson took it all.

Hamilton, alias Gibson, said he was an Irishman, born in Londonderry, and was transported for robbery twelve years ago, previous to which he had been a hard working man. He also said that he had got his living by robbing, and that he has been connected in many of the crimes that had been committed in San Francisco. Gibson made no confession which implicates individuals.

After this prisoner had concluded, Thompson received Extreme Unction at the hands of the Catholic Clergyman, and begged of the crowd to pray for his soul.

The prisoner Gibson was an Episcopalian.

The cord was then adjusted upon their necks, and at 20 minutes to 3 o'clock the Sheriff cut the rope that held the drop and both prisoners were launched into eternity without a struggle or a groan.

The prisoners bore themselves with the greatest fortitude throughout the whole of this tragical scene, and not the slightest agitation was perceptible.

At the moment the cord was cut, a cry was heard, "Now for Robinson!" The shout went up from the dense throng, "Hang the Scoundrel!" "Bring him here!" "Let him hang too!"

The scene which following was the most terrific ever witnessed. The thronging crowds rushed for the station house in the greatest excitement, and on all sides was heard the same thrilling cry, "Hang the rascal!"

A gentleman came forward on the platform, and announced that Robinson was on the ground, and, as soon as the bodies of Gibson and Thompson were cut down, would be brought forward to meet his doom. Col. Grant also addressed the crowd, and stated that the prisoner richly deserved to die, and that he was happy to see that the public coincided with him.

In the meantime the Sheriff, having performed his duty efficiently and faithfully, retired from the scene, as did also the officers with whom he was connected. Too much praise cannot be awarded this officer for the manner in which he has conducted himself in the responsible position in which he has been placed. He summoned early in the morning a hundred citizens to assist him, but as might be expected, scarcely a man could be found who would volunteer his services. He therefore ordered the Stark Guards to conduct the prisoner to the Prison Brig, and having performed his duty with reference to the other prisoners, he could do no more.

The muffled drum of the Guards announced that the culprit Robinson was approaching. The crowd gave way, the committee with their prisoner slowly and solemnly ascended the scaffold, and the guards formed a hollow square around it below.

Robinson appeared perfectly cool and collected, and, on being requested to address the crowd, came forward, and in a clear voice made another confession.

He evidently appeared desirous of creating a sensation, and accordingly commenced by alleging the grossest and most unfounded charges against men who stand high in this community, implicating them in transactions of which there is not the slightest probability that they were privy to or knew anything of. At all events we do not feel ourselves justified, on such evidence as his, in proclaiming to the world that officers who have heretofore been deemed upright and honorable are no better than felons.

After many disconnected and incoherent remarks in which he attempted to throw the blame of many of his own acts on others, he concluded by exhorting the young men present to beware of the company they keep, and also of the intoxicating cup, which has caused the ruin of so many.

Rev. Mr. Benton offered up an exceedingly fervent and appropriate prayer on behalf of the prisoner, and Robinson himself knelt down and invoked Heaven to have mercy on his soul, and to support his mother and sisters under the painful affliction which his dishonorable end would inflict upon them.

He then rose, and with the utmost self-possession and firmness adjusted his clothes, bared his neck, and prepared to meet his fate. The fatal noose was adjusted, the President severed the rope and the criminal dropped below the scaffold. The prisoner being a very powerful and muscular man, the fall did not kill him instantly as in the case of the others, but his frame was convulsed, and his limbs moved for some moments after.

He breathed for a few moments, and then the body, after hanging for twenty minutes was delivered to the undertaker, and decently interred, with those of the other prisoners, in the City Cemetery.

Robinson was born in the city of New York, in the year 1819, on East Broadway, and lived in New York from that time, until he was was 11 years old.

New Orleans, Oct. 7.

Letters received here state that Mr. Letcher–the American Minister to Mexico–had several interviews with the Capt. Gen. of Cuba, but not particularly with reference to the American Prisoners. A number of those lately captured in the mountains had been liberated.

VALUABLE REAL ESTATE AT AUCTION.

NOTICE IS HEREBY GIVEN, that the undersigned will sell at auction (unless previously sold at private sale) on Saturday, the first day of November next, at ten o'clock A. M., at the American House in the city of Milwaukee, the following tract of land, viz:–The east half of the northeast quarter of section eleven, town seven, north of range sixteen east; containing eighty acres. And the north west quarter of the south east quarter of section ten, town seven, north of range sixteen east; containing forty acres.

This land lies in the extreme part of Jefferson County, about thirty-five miles from Milwaukee, five from the village of Summit, three from Oconomowoc, and 3 or 4 from the plank road; in a rich and truly beautiful farming country. The first named tract, is one of the most beautiful eighties in the State, lying high and dry; it is well timbered, has 27 acres neatly cleared and fenced a small block house, and is bounded on the south end by the Oconomowoc River. The other tract is partly dry marsh, and partly timbered land, with about eight acres cleared, and has on it a small log house, and an excellent Saw Mill, with cast iron gearing, all nearly new, which cost $1,000. This mill is erected upon the Oconomowoc River, has a plenty of water all the year, and the same dammed ample to drive a good Flouring Mill in addition, which is greatly needed in that section.

These two tracts lie upon opposite sides of the Oconomowoc River, from one-fourth to one-half a mile apart, and to any one wishing a neat farm and a mill property near this sale affords a rare chance. These two tracts will be sold either separate or together. Sale positive, no sham bidding, and terms made known at the time of sale. Persons disposed to purchase are especially requested to call and examine the property, and may bargain with Messrs. Spence, upon the premises, or with the undersigned at their office in the city of Milwaukee.

N. B. Title perfect and free from all incumbrance.

AGENT FOR PITTSBURGH GLASS. oct2

PHILLIPS' UNITED STATES

Fire Annihilator Agency.

THE undersigned respectfully announces that he is the authorized Agent for the English Patentee for the disposal of PATENT FIRE ANNIHILATORS in the Counties of Milwaukee and Racine. His agency, based upon a certain proprietary interest in the Patent, will be conducted in connection with a company of operation, to be known as

"Phillips' United States Fire Annihilator Company."

Of which Hon. ELISHA WHITTLESEY, 1st Comptroller of the United States Treasury at Washington, is the President. Hon. JOHN M. CLAYTON, of Delaware, is Counsel for the Company, and P. T. BARNUM, Esq., General Manager and Secretary.

The prices of Machines, and of Charges, are as follows:

SIZE OF MACHINE.	PRICE, INCLUDING FIRST CHARGE.	PRICE OF EACH SUBSEQUENT CHARGE.
No. 1	$10	$1 25
No. 2	20	1 75
No. 3	25	2 50
No. 4	30	3 00
No. 5	35	3 50

Freight from New York added to the above prices.

The machines can be made to order of any size, at proportionate prices.

No. 1, (the smallest size) is valuable for extinguishing fires in chimnies and small apartments.

No. 2 is used with effect in larger buildings, and at the outset of a fire, and has the advantage of being the most portable of the sizes deemed available for houses.

Nos. 3, 4 and 5 are the Hand Machines of greater power. No. 3 can be carried by a lady. Nos. 4 and 5 can only be handled, to advantage, by a man, and are preferable for large establishments, as they may be effectually used for street fires.

In addition to the Hand Machine, there are Street or District Annihilators, mounted upon wheels, and intended to be drawn by firemen in the usual manner. These machines are possessed of continuous power, and will emit, through a hose, a stream of vapor upon a burning building for any desirable length of time.

The Portable Machines are so simple in construction that they are not liable to get out of order, and their application is so easy that any person may effectually use them. The chemical charges may be preserved any length of time.–These Machines furnish an infallible protection against the destructive consequences of fire, as they are always ready for constant use, and contain within themselves the means of extinguishing accidental fires, as soon as discovered.

THE FIRE ANNIHILATOR is made to evolve a humid vapor, and to emit it with great expansive force, so as to penetrate into, to search out, and extinguish the fire. But, while the vapor emitted is destructive to fire, it is innoxious to life, and even tends to purify an atmosphere charged with smoke; nor does it injure the furniture or goods which may have escaped the action of the fire. And in this capacity the machines constitute the best fire escape, and the means of rescuing property from the flames the world has ever known; even the smallest machine, inadequate to the extinction of a large fire, will enable the bearer to enter the flames and rescue life and property with perfect impunity.

The merits and practical utility of the Patent Fire Annihilator have been thoroughly tested, and are acknowledged by the most eminently scientific men, and the machines have been, by command, supplied to the Royal Palaces of Queen Victoria, The Crystal Palace of the World's Fair, the mansions of the Nobility, the principal Manufactories of Great Britain and France, Theaters, Churches, and other public edifices, as well as Steamboats, Shipping, &c. now have them in constant use.

One of the great advantages of this invention, will be the immediate reduction it must occasion in the Rates of Insurance; and the underwriters will at once perceive that their profits must be greatly enhanced by the extraordinary diminution of destruction effected at every conflagration.

On the 13th instant a Register will be opened at the office of the Company in Milwaukee, (due notice through the Press will be given of its location,) for the reception of subscriptions for machines, and every person will be served in regular rotation, according to priority of application.–When sent by mail, the application will bear date with the day of depositing in the Post Office. The price of the machines, in all cases, to be paid at the time of subscribing, and seven per cent. interest will be allowed on any time (if any) that said money remains over 20 days before the order is supplied. In this arrangement, however, a priority will be given to all City Corporations, and proprietors of large manufactories, where great risk from fire exists, and where the premium required for insurance is high; also to theaters, hotels, and large steamers, where many human lives are jeopardized. Every machine will be stamped with the name of the company; and as the company are determined to accommodate the whole public, by supplying machines, of the most durable materials, and chemical charges of the most approved manufacture, at the above reasonable prices, they will prosecute, to the whole extent of the law, all attempts to imitate, counterfeit, or infringe on said patent, as well as every person who may purchase and use such infringements. All importers of Foreign Machines, or those having them in possession, will be prosecuted.

Each machine will be stamped with the name of the county or city for which they are sold, and they can't be used in any other locality without a written permission from the Agency. Nor can any purchaser of a machine possess the right to sell the same in any other town, unless he has purchased the territory where said machine is to be sold. Every purchaser of a machine will receive a certificate authorizing him to use the same in the town for which it is purchased. [illegible] connection with other members of the company, made the strictest investigation and experiments, and being perfectly convinced that this wonderful invention will accomplish all that is urged in its behalf, and thus become an indispensable article in every house, manufactory, ship, or other place where fire is used or may be introduced, have accepted the above appointments, and are prepared to fulfill their duties to the public to the best of their ability.

TAKE NOTICE!

PATENT

BEDSTEAD.

THE undersigned have recently introduced to the public a new article of Bedsteads, entitled "BINKLEY'S PATENT SUSPENSION BED BOTTOM AND FASTENING," which possesses, as they believe, a decided superiority over every other kind now in use.

The advantages of this Patent are, first, the elasticity of the spring, the simplicity and durability of its structure, and what is of far greater importance, these Bedsteads are "BUG PROOF." For these reasons it is believed to be not only the best, but the cheapest Bedstead that can be used!

In enumerating its advantages, the proprietors only repeat the statement of competent persons in this city and elsewhere, who have had the best opportunity of judging of its merits.

FACTS WILL ALWAYS SHOW!

and when we say that one firm in New York (Troy) manufactured and altered over [under this Patent] TWELVE THOUSAND Bedsteads within two years, and that in the eastern cities,

ONE HUNDRED THOUSAND

Have been made and altered, we tell nothing but the truth, and exemplify the advantage, luxury and economy of this Patent over all others now or heretofore in use. These Bedsteads have been adopted at the Astor House, N. York; Troy House, Troy; Mansion House, Troy; Irving House, Troy; Marvin's U. S. Hotel, Saratoga; Globe Hotel, Syracuse; Blossom's Hotel, Rochester; U. S. Hotel, Buffalo; Burnet House, Cincinnati; American House, Madison, O.; Neil House, American House, Capital House, [illegible] Hotel, Buckeye Hotel, Columbus, O.

This patent received the

HIGHEST PREMIUM,

at the late Fair of Rensselaer count, N. Y., New York, Albany; State Fair, Erie county, Buffalo; Boston, Mass. State Fair; Wayne county, O., Stark county, O., and numerous others.

MILLARD, HOLTON & CO., Proprietors of the above Patent, may be found at the Furniture Warehouse of J. F. Birchard, No. 21 Spring-st., 3 doors east of the American House, Milwaukee, where applications for Rights in Towns or Counties will be promptly attended to.

Persons wishing to have their Bedsteads remodelled on the above plan, will please leave their names with Mr. Birchard, at the above named place, where they will meet with prompt attention. These Bottoms are considered preferable for Lounges or Trundle Beds, and will be inserted for the sum of $1.25.

In conclusion, we are free to state to a discerning public that after giving the above Bed Bottom a fair trial, they will award to its merit of not overrating the good qualities of the "Patent Suspension Bed Bottom," and we confidently look for a liberal encouragement from a discerning public.

MILLARD, HOLTON & CO.

P. S. Any person infringing on the above Patent, will be prosecuted according to law.

A New and Valuable Improvement in Bedsteads.

We, the undersigned, citizens of Milwaukee, having examined "Binkley's Patent Suspension Bed Bottom," now being introduced into this city by Millard & Co., pronounce it far superior in all respects, to any thing of the kind that we have heretofore known either in this or any other State. Its superiority over all others, consists in the elasticity of its spring, the simplicity and durability of its structure, and what is of far greater importance, these Bedsteads are "Bug proof."

We feel, too, that for cheapness, it does not cost any more than the common wood screw, (the expense of the cord and sacking bottom being saved) and for practical utility it must in fact supersede all kinds heretofore used. We would therefore cheerfully recommend it to the citizens of Milwaukee, and the public generally.

TO MANUFACTURERS, MILLERS Machinists, and Others,

PUTTING up or running Machinery, the BOSTON BELTING COMPANY offer for sale a full assortment of their unrivalled

Metallic or Vulcanized Rubber BELTING,

Steam Engine PACKING, HYDRANT, CONDUCTING & ENGINE HOSE.

The superiority of the Belting to Leather is acknowledged by all who have used it, for the following reasons:

1.–The perfect equality of width, and thickness, which it WILL RETAIN.

2.–No degree of heat under 300° Fahrenheit injures it; it remains flexible in any degree of cold, and is NOT AFFECTED BY MOISTURE.

3.–It is of great strength and durability, will not stretch, does not slip on pullies, a gain of power is obtained, and when adjusted to machinery does not require alteration, as is the case with leather or any other.

4.–It is from 30 to 40 per cent. cheaper than leather.

The following certificate from a gentleman well known to this community, is appended:

STEAM MILLS, MILWAUKEE, December 14, 1850.

I certify that I have used the METALLIC RUBBER BELTING for the past three years, for driving a Smut Mill, running at a speed of about 700 revolutions per minute. It does not slip on the pulley–will not stretch, nor does it require alteration. I consider it preferable to leather, having used both. W. S. LASTON.

Certificates from all the principal Eastern Manufacturers, Millers, Machinists, &c. &c., can be seen at the Agency.

Troy Fire Insurance Company

TROY, WALWORTH COUNTY, WIS.

CAPITAL $100,000.

The Directors feel grateful to the public for having thus early manifested their approval of and confidence in this Company. After having been in operation ten months, we are able to report as follows:

Whole number of Policies issued,	940
Whole amount of Property insured,	$680,651 00
Whole amount of Cash premium,	$314 27
Whole amount of losses allowed and paid,	271 77
Balance of Cash Premium on hand,	842 50

IT is gratifying to the Directors to state to the members of this Company, that the business has more than met their expectations, and is rapidly increasing. This unparalleled success in the commencement, and increase of business, show that our plan and management meets with the approval of the public.

The Charter and Bye-Laws are free from objections, and provide that the risks shall be divided into two distinct departments, and the premium notes in one shall not be liable for losses in the other. The only risks taken in the Farmer's Department are on farm property, detached dwellings, country churches, school houses, tailors' shoemakers', and saddlers' shops. No hazardous risks will be taken in either department, nor more than $2000 in one risk, or in a circle of eight rods.

The company possess both the advantages of the Stock and Mutual plan. Any person insuring may pay once and the regular cash premium in full, without a premium note, [illegible] be added or changed, one-building [illegible] such additions [illegible] without [illegible] buildings erected, if fifty feet from owner, and repairs made as do not increase the hazard, notifying the company. The Company will be responsible for the correctness of surveys taken by their Agents. Insurance may take effect on the day the application is made. The Company pays, in case fire, the full amount of damage, not exceeding the amount insured, and all matters of difference may be settled by arbitration in the county where the loss occurs.

The rates charged by this company, though low, are based upon the actual results of insuring the the past twenty years, and are found to be sufficient, with prudent management, to pay all losses and expenses without ever resorting to the premium notes; thus the rates on exposed dwellings and farm property, are a premium note of one per cent, and a cash premium of fifty cents on each $100 for five years.

In publishing our safe, cheap, and popular plan of Insurance, we deem it a duty to ourselves and the public to state a few existing facts with the Washington and [illegible] gomery [illegible]

The Washington County Mutual commenced in 1846, by collecting thirty cents on $100; in 1848 they first discovered that this was insufficient to pay losses, and raised to 42 cents and now, are collecting 50 cents on each $100, as a result of which is, by their report, Jan. 1, 1850, $9000 in the treasury, and 65 million at risk, on which they will probably lose two hundred thousand, making their actual loss 191 thousand.

The Montgomery County Mutual is another example of bad management. They have been in operation a little longer than the Washington, and their report shows to the Washington is fast coming to. They reported to the Comptroller, Jan. 1, 1850, that their losses and cash expenses had exceeded their cash receipts twenty-nine thousand dollars, and fifteen thousand dollars claims unsettled, making debts and claims forty-four thousand dollars, and some thirty millions at risk, on which they will probably lose ninety thousand dollars more, making their actual debt one hundred and thirty-four thousand dollars.

The cash premiums now collected by these two companies on what they insure in future will only pay losses on the same, consequently those insuring with them now will only pay for their insurance, but assume a portion of these enormous debts, which must be raised by tax. These companies are unpopular in New York, and see compelled to wander in the Valley of the Mississippi where they are not so well known for business. Arch. Bishop and Lester Wilcox may publish, as heretofore, their firm belief that no tax will ever be necessary, but the figures are the things to judge from.

Since the above reports, the Montgomery have levied a tax on their premium notes.

Now we would ask the public candidly, which of these three companies it is to their interest to insure in; the Washington, and assume a debt of $191,000; the Montgomery, and assume a debt of $134,000, or of the Troy, with an increasing cash fund sufficient to pay all losses and expenses without ever resorting to a tax?

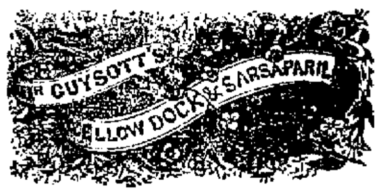
PATENT MEDICINES.



Dr. Guysott's Improved Extract
OF
Yellow Dock and Sarsaparilla.

IS NOW PUT UP in the largest sized Bottles and is acknowledged to be the BEST SARSAPARILLA made, as is certified by the WONDERFUL CURES it has performed, the original copies of which are in the possession of the proprietor. Remember, this is the only TRUE and ORIGINAL article.

This Medicine, when used according to directions,

Will Cure Without Fail,

Scrofula,
or King's Evil,
Cancers, Tumors,
Eruptions of the Skin,
Erysipelas, Chronic Sore
Eyes, Ringworm, or Tetters,
Scald Head, Rheumatism, Pains in
the Bones or Joints, old Sores and Ulcers,
Swelling of the Glands, Syphilis, Dyspepsia,
Salt Rheum, Disease of the Kidneys, Loss
of Appetite, Diseases arising from the use of
Mercury, Pains in the Sides and Shoulders,
General Debility, Dropsy, Lumbago,
Jaundice, and Costiveness.

THE BEST FEMALE MEDICINE KNOWN!

Incipient Consumption, Barrenness, Leucorrhea, or Whites, Irregular Menstruation, Incontinence of Urine, and general gloomy state of mind are cured by DR. GUYSOTT'S EXTRACT OF YELLOW DOCK AND SARSAPARILLA, which gives immediate relief by renewing the foundation of health and strength, the blood. It neutralizes bad humors, stops unnatural secretions and gives healthy action to all the vital powers.

Let all who wish to purge the blood from the impurities contracted from the free indulgence of the appetite during the winter, and to prepare the system to resist summer epidemics, resort now to "Dr. Guysott's Extract of Yellow Dock and Sarsaparilla," which is proving itself an antidote for many of the most malignant diseases that flesh is heir to, and they will never be disappointed; for in this remedy the public faith has never wavered—never can waver; for it is founded on experience, just as their want of faith in other and spurious compounds is also founded on experience. They fly from mineral nostrums to seek hope, life, and vigor from this purely vegetable remedy; therefore, however broken down in health and spirits however loathsome to himself and others let no one despair of recovery; let the patient only understand that his hope of physical restoration lies only in Guysott's Extract of Yellow Dock and Sarsaparilla, and persuade him, for his life's sake, to try it, and we have no hesitation in predicting his speedy restoration to health.

King's Evil—Case of O. M. LEONARD.—If the reader will observe, he will see that in nearly all cases the patient has tried nearly every physician within his reach, and nearly every remedy; but when he hits upon Guysott's Yellow Dock and Sarsaparilla, the cure is immediate!

Prolapsus Uteri, or falling of the Womb, of five years standing, cured by Dr. Guysott's Extract of Yellow Dock and Sarsaparilla, after every other known remedy had been tried without effect!

Washington, Ohio, February, 1849.

This certifies that my wife, aged 27 years, has been suffering under the above complaint for 5 years—nearly all of that time confined to her bed. I have for 4 years constantly employed the best medical talent that could be procured in this section of the country; without any benefit whatever. I have also purchased every instrument recommended for the cure of such diseases, all of which proved worthless.

In the spring of 1848, I was induced by my friends to try Guysott's Yellow Dock and Sarsaparilla, which was used for 4 months. After she had used it for about 4 weeks, it was evident to all that she was improving, and from that time she improved rapidly, and gained flesh and strength, until the disease was entirely removed, and she is now enjoying most excellent health.

WM. MONTFORT.

We, being the neighbors of William and Julia Montfort, know that the above statement, as to the sickness of Mrs. Montfort, and as to the cure being effected by Dr. Guysott's Yellow Dock and Sarsaparilla, to be strictly true.

JANE EDDY.
SARAH POWERS.

Blooming Grove, Dec. 1, 1849.

Messrs. S. F. BENNETT & Co.—Gents: Some time in 1843, I was attacked with King's Evil in my arm, which became so sore that I could not use it, and in 1845 mortification set in. I employed, at different times, each physician of celebrity within my reach; all told me that my arm must be amputated. From the shoulder to the fore-arm, my arm was full of running sores—some of them as large as a fifty cent piece. I then tried an Indian doctor, who removed the mortified flesh, and stopped the mortification, but could not heal my arm. My strength at this time was completely exhausted, and my person much exhausted. I continued in this state until the summer of 1848, when I saw an advertisement of Guysott's Yellow Dock and Sarsaparilla, which I read attentively, and sent for one bottle of the article. After using it a few days, the discharges from my arm increased, and assumed a light color, and lost offensive odor. I sent for a second bottle, and while using it I found my strength increasing and the discharges from my arm decreasing. I continued using it until I had used six bottles, though I felt myself perfectly cured before I used the sixth bottle. Since that time I have not felt any pain in my arm; no sores have re-appeared, and I have no reason to doubt that it is thoroughly cured, for I can labor with it as well as I ever could.

"Guysott's Yellow Dock and Sarsaparilla" alone cured me; I took no other remedy while using it, and had I it used at the first appearance of the malady, I fully believe it would have saved me from years of suffering. And I most earnestly recommend every person suffering under any similar disease, to use Guysott's Yellow Dock and Sarsaparilla, which will restore them to health.

Yours, in gratitude,
O. M. LEONARD.

TO THE PUBLIC.

THE introduction of Dr John Bull's unequalled Sarsaparilla, has formed an era in the medical world. Its rise, progress, and the many wonderful cures it has effected, since it was introduced to the public, have been a subject of great astonishment, and even commanded the admiration of the American people. When the history of this truly wonderful medicine is known, together with the extraordinary exertions made by Dr. Bull, to make it the most valuable compound of Sarsaparilla known to the world, its rapid and unprecedented rise and progress will no longer be a theme of astonishment.

Twenty-six years since, Dr Bull, then a boy, came to Louisville, and was employed for a number of years in studying the business of an Apothecary, with Messrs. Byers & Butler, Dr. T. E. Wilson, and the lamented L. George, Jr. After leaving the service of Dr. Wilson, Dr. Bull was employed by Dr. F. Scorch, an old and celebrated German physician of this city, and who was for many years Surgeon in the Grand Army of Napoleon. Dr. Scorch, during his life, made a fluid Extract of Sarsaparilla for the especial use of the physicians of this city, and which was considered at that time by far the most superior article made. Dr. Bull was employed by Dr. Scorch, in compounding this celebrated Sarsaparilla, and he then conceived the idea, and finally fully determined (seventeen years since) to introduce at some future period, for the consideration of the afflicted, a preparation of Sarsaparilla.

Since that time, his mind has been constantly employed in studying the ingredients, and experimenting to find a complete, safe, and valuable compound of Sarsaparilla, such a one as would be acknowledged by physicians as and saluted in its efficacy, and hailed by the afflicted with demonstrations of joy. By close and unremitting study, he at last succeeded in gaining the desired end. His Extract having been several years before the public, and its merits completely tested, he confidently appeals to the thousand certificates of its wonderful cures, and hence for its great superiority over all other similar compounds. It is therefore a matter of no surprise, that the question is frequently asked.—"Why don't Dr. Bull's Sarsaparilla continue to advance in the favor and confidence of the public, when all other similar preparations, which have preceded his, have been cast aside as unworthy of the slightest notice?" That it is not required, yet this question is easily answered. Dr. Bull has not worked alone for pecuniary preferment; gain has not been his sole object; he has had a higher and a nobler aim constantly in view—that of relieving the sufferings of his fellowcreatures. Unlike those who compound a good article for a short time, that they may gain a reputation, and having attained the object of their wish, reduce their article, by leaving out its most valuable ingredients, to a worthless mixture, in order to accumulate wealth. Dr. Bull has continued to use the costly ingredients, which his long study and experience enabled him to discover, and which have been of such invaluable service to suffering humanity. He seeks to gain an unspotted reputation not only for himself, but also for his renowned Sarsaparilla; and it is a fact worthy to be recorded, that every gallon of the Sarsaparilla sold by Dr. Bull is made with his own hands, and under his immediate Superintendence. For several years past, he has been daily experimenting in administering his mixtures without charge, to patients pronounced incurable; and to his eternal fame be it recorded, his efforts have been crowned with the most wonderful success. His Sarsaparilla has now gained such a wide spread reputation, and been established upon such a solid basis, that he is firmly satisfied of its undoubted merits, and confidently challenges the combined Medical skill of Europe and America to produce out of Sarsaparilla, a superior preparation to his Fluid Extract.

Dr. Bull would here like to introduce a few of the many testimonials of the wonderful effects of his Sarsaparilla; but to publish the one quarter of the astonishing cures effected by the use of this truly great Medicine, would require a volume of five hundred pages, and the Doctor has to be satisfied by offering the opinions of a few distinguished men, believing that these opinions will be sufficient to induce all who are afflicted to give Bull's Sarsaparilla a trial.

TESTIMONIALS.

Louisville, March 20, 1849

I have examined the prescription for the preparation of John Bull's Sarsaparilla, and I believe the combination to be an excellent one, and well calculated to produce an alterative impression on the system. INFLUENZA,	In twelve hours.
HOARSENESS,	In ten hours.

Special complaints, swellings, bruises, sores, wounds, &c., it will relieve ten times quicker than any other remedy in use.

LET THOSE WHO SUFFER PAIN TRY IT!

It will prove itself in a few minutes. As soon as it is taken internally, or applied externally, its beneficial effects are seen.

IT IS BETTER THAN ALL OTHER REMEDIES

HERE IS THE PROOF!

There is no other remedy that claims to subdue the cruel pangs of pain in seconds, minutes, or even hours. They require the patient to use dose after dose before a favorable change is promised. Not so with RADWAY'S READY RELIEF. Its effects are instantaneous; the first dose that is taken, or the first external application, commences its great work of relief from pain.

SICK HEADACHE CURED IN 20 MINUTES

Radway's Ready Relief has cured over 10,000 cases of Sick and Nervous Headache during the past season. In the Western States where this distressing complaint is so general, Radway's Ready Relief has cured every case where it has been applied. Our agent at Romeo, Michigan, writes: "Out of our Village of 1000 inhabitants, Radway's Ready Relief has cured 750 persons of sick and Nervous Headache, Weakness, Fainting spells,—curing many of the worst cases in the incredible short time of 15 minutes. It is now surpassing every kind of Medicine we have here, in arresting pain and curing diseases of Nervous, Rheumatic and of Billious type."

LADIES BEDSIDE COMPANION

Radway's Ready Relief, from its universal applicability for all Pains, Aches, and Complaints incident to this country, writes our agent at Rockford, Ill., is looked upon as a God-send. "Our ladies will not even go to bed unless they have a bottle of Ready Relief within their reach; and our men will not venture out of their dwellings without a bottle of this safeguard in their pockets. It cures all Pains, and all Aches; Headache, Faceache, Toothache, Backache, Earache, Stomachache, Pain in the Limbs, in the Joints the Muscles, the Legs, Feet, Arms, Shoulders—wherever and whatever the pain may be it is instantly subdued by the use, either internally or externally, of Radway's Ready Relief."

RHEUMATISM CURED IN 20 MINUTES.

It has cured Mr. T. Freely, of 60 Water st., who was confined to his bed for nine months, who tried every Liniment, Sarsaparilla, Life Balsam of any popularity, without one hour's relief. Radway's Ready Relief stopped all the pain in twenty minutes. Mr. Freely is now in good health. It cured a lady at Clifton, Va., so writes Rev. Jones of that place, "In two hours, of Chronic Rheumatism." It cured a gentleman from Sing Sing, who had the Rheumatism for Six Years, in twenty-four hours—so says the Hudson River Chronicle, published in that place. If there is a person in this city, now suffering with Rheumatism, Neuralgia, Nervous, Tic Doloreux, who has tried all other remedies advertised, and has not been cured, we invite you to call upon us at our office, 162 Fulton St., N. Y., and we will warrant you a speedy cure.

WEAK AND ENFEEBLED, VICTIMS OF NEURALGIA.

Radway's Ready Relief possesses a far more potent power over this class of diseases, than Morphine, Quinine, Strychnine, or any other Nervine in use. It stops the pain quicker, is free from all poisonous or debilitating properties. It is entirely vegetable, and as innocent as the snowflake. More powerful than all the Nervous Antidotes, mixtures of Sarsaparilla, &c., in use. Its first action is to blunt the acute sensibility of the nerves—to give strength, vigor and action to the nervous energy; to invigorate the functions and secretions of every organ in the system to a free and healthy action; to give a quickened action to the liver and tone to the stomach; to regulate the action of the bowels and secretions of the skin, and carry out of the system all morbid, poisonous and refuse humors; to give health to the body, to strengthen the nervous energy of the whole system; to change the weak, enfeebled, worn out, broken down constitution to a healthy, robust, joyful, strong and hearty being. A teaspoonful of Radway's Ready Relief taken internally three times per day, and by applying it externally when pain is present, will do all this.

MARRIED LADIES

Should make use of Radway's Ready Relief as a bath. Its invigorating and relaxing properties soften the flesh, gives strength, elasticity and suppleness to the joints and limbs. Moreover, it is a powerful regulator of the secretions and functions of every organ in the system. Married ladies, by bathing every night with Radway's Ready Relief, at a particular period, will avoid much of the pain attending them on certain occasions.

COUGHS AND COLDS.

Radway's Ready Relief will instantly stop the most troublesome Cough. It has cured hoarseness time and again, in a few hours. Taken internally, it enables the patient to expectorate freely, removes all inflammation, swelling and irritation of Bronchical organs, and by bathing externally, the neck, throat and chest, it produces a quick action to the skin, the patient perspires freely, it removes the pain from the throat and gives strength to the lungs.

ERUPTIONS OF THE SKIN.

By adding a table spoonful of Relief to a table-spoonful of Olive Oil, it will stop the most painful itching of the skin in a few minutes, and entirely cures Salt Rheum, Ring Worm, Itch, Burns, Sores, Scalds, &c.

ELEGANT TOILET REQUISITES.

To Enhance and Embellish the Charms of Beauty.

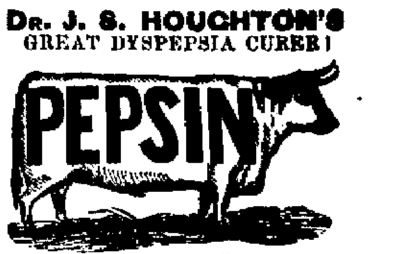
PATENT MEDICINES.

Entered according to Act of Congress, in the year 1851, by J. S. HOUGHTON, M. D., in the clerk's Office of the District Court for the Eastern District of Pennsylvania.

Another Scientific Wonder!

Dr. J. S. HOUGHTON'S
GREAT DYSPEPSIA CURER!



THE TRUE
DIGESTIVE FLUID,
OR
GASTRIC JUICE

PREPARED from Rennet, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. D., Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, Curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

☞ Half a teaspoonful of Pepsin, infused in water will digest or dissolve, Five Pounds of Roast Beef in about two hours, out of the stomach.

Pepsin is the chief element, or Great Digestive Principle of the Gastric Juice—the Solvent of the Food, the Purifying, Preserving and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an Artificial Digestive Fluid, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation the pains and evils of Indigestion and Dyspepsia are removed, just as they would be by a healthy Stomach. It is doing wonders for Dyspeptics, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree Curious and Remarkable.

SCIENTIFIC EVIDENCE.

Baron Liebig in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr. Pereira, in his famous treatise on "Food and Diet," published by Fowler & Wells, New York, page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira.

Dr. Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and all prevailing cause of Dyspepsia;" and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had recourse to the Gastric Juice, obtained from the stomachs of living animals, which proved completely successful."

Dr. Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."

Professor Dunglison, of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject.— His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals, are well known. "In all cases," he says, "digestion occurred as perfectly in the artificial as in the natural digestions."

Dr. John W. Draper, Professor of Chemistry, in the Medical College of the University of New York, in his "Text Book of Chemistry," page 386, says, "It has been a question whether artificial digestion could be performed—but it is now universally admitted that it may be."

Dr. Carpenter's standard work on Physiology, which is in the library of every Physician, and is used as a Text-Book in all the Colleges, is full of evidence similar to the above, respecting the remarkable Digestive power of Pepsin, and the fact that it may be readily separated from the stomach of the calf or ox, and used for experiments in Artificial Digestion, or as a remedy for disease of the Stomach, and deficient secretion of Gastric Juice.

All modern works on Chemistry, Materia Medica, and Physiology, and all good Medical Dictionaries, describe the character and properties of Pepsin, and state many interesting details respecting it.

The fact that an Artificial Digestive Fluid, or Gastric Juice, perfectly resembling the natural fluid, may be readily prepared, does not admit of question. The only wonder is, that it has not before been applied to the cure of indigestion and Dyspepsia—so naturally does such a use suggest itself to the mind.

AS A DYSPEPSIA CURER.

Dr. HOUGHTON'S PEPSIN has produced the most marvelous effects, in curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement; but authenticated certificates have been given of more than Two Hundred Remarkable Cures, in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful but permanent.

It is a great Nervous Antidote, and particularly useful for tendency to Bilious disorder, Liver complaint, Fever and Ague, or badly treated Fever and Ague, and the evil effects of Quinine, Mercury, and other drugs upon the Digestive Organs, after a long sickness. Also, for excess in eating, and the too free use of ardent spirits. It almost reconciles Health with Intemperance.

OLD STOMACH COMPLAINTS.

There is no form of Old Stomach Complaints which it does not seem to reach and remove at once. No matter how bad they may be, it gives Instant Relief! A single dose removes all the unpleasant symptoms; and it only needs to be repeated for a short time to make these good effects permanent. Purity of Blood and Vigor of Body follow at once. We would respectfully call the attention of our many friends, and the public generally, to an instrument we have recently imported from Paris, called a

"Conformateur,"

from which the above cut was taken. By it we can take the exact shape, and unerringly fit the most irregular heads. Many can testify to the inconvenience, and annoyance, and actual pain they are subjected to, in breaking in Hats that will not fit them. By this ingenious contrivance, this very great annoyance is done away; as the Hats are made to fit perfectly the first time.

Another great advantage is, by keeping a copy of the impression, we can at all times fit our customers from all parts of the country.

We invite all who desire a perfect fit in a Hat, to call and leave an impression of their head; and all those who take pleasure in witnessing the inventions of the ingenious, to call and see the operations of this curious instrument.

Having adopted the CASH SYSTEM (which all will readily acknowledge to be the best,) we are enabled to sell the best Silk Hat made, at the extreme low price of $4.25; surpassing any $5 Hat sold in this city. Our Hats are all manufactured by ourselves, and in offering them to our customers, we do so, with the confident assurance, they are all we recommend them to be. We invite all who do not wish to pay two profits upon a Hat, and are willing to save 25 per cent, to call and see us.

Orders at WHOLESALE filled at the lowest New York manufacturing prices.
